

To all members of the University community

Dear Students, Faculty, and Administrative Staff,

Like you, we are following the rise in morbidity of the Corona virus as the Omicron variant spreads. We review the situation on a daily basis and are in continuous contact with government authorities. Guidelines are updated according to their instructions.

At this stage, teaching and research activities will continue on campus as usual, without change, according to current guidelines. As you know, campus is operating according to Green Pass requirements.

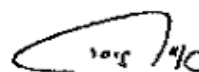

Exams are planned to take place physically on campus, for all students, in accordance with Green Pass requirements (upon presentation of a Green Pass or a current negative Covid-19 test). As in the past, exceptional cases will be dealt with by the respective academic departments. The exam timetable is likely to change, and students will be duly informed.

Once again, I would like to stress the importance of respecting guidelines and complying with regulations regarding teaching and research on campus. First and foremost, make sure to wear a facemask in class and in all enclosed spaces. Also, please maintain proper hygiene and social distancing, and avoid group gatherings, in keeping with current guidelines.

International students who are unable to return to Israel because of current travel restrictions must contact the division's administrative office.

I wish you all good health and good luck in your exams. Together, we will get through this wave, and any other that may follow.

Cordially,

Prof. Eyal Zisser

Vice Rector
